Test 123 with quote "Our anniversary year!"

"It's going to be incredible!" said TB at the anniversary. ER aslkdfjaldkijf akdfj aksdjf akldjfkldjfd

Developers realise great savings potential right from the start of a machine's design. With appropriate design tools, digital twins and efficient circuit diagrams, savings of up to 80% can often be achieved.

Is bullet point visualisation also possible?

"Quote with special characters!", said TB.

About Festo

Festo is a global player and an independent family-owned company with headquarters in Esslingen am Neckar, Germany. Festo has set standards in industrial automation technology

and technical education ever since its establishment, thereby making a contribution to sustainable development of the environment, the economy and society. The company supplies pneumatic and electrical automation technology to 300,000 customers of factory and process automation in over 35 industries. Digitalization, AI and the LifeTech sector with medical technology and laboratory automation are becoming increasingly important. The products and services are available in 176 countries. With about 20,600 employees in over 250 branch offices in around 60 countries worldwide, Festo achieved a turnover of around €3.45 billion in 2024. More than 8% of this turnover is invested in research and development. In this learning company, 1.5 % of turnover is invested in basic and further training. Festo Didactic SE is a leading provider of technical education and training and offers its customers worldwide comprehensive digital and physical learning solutions in the industrial environment.
